Tips to Help you Quit:

Ask for support - If you feel comfortable, ask the people around you for support. This could be a friend, parent, teacher, coach, or counselor.

Be prepared - Pay attention to when you have a craving, and what could be your trigger. This could be stress from exams, peer pressure, or other factors.

Use all the Resources - Apps, texting, and asking for support from someone you trust will help you be more successful at quitting.

Get Active - Studies have shown that exercise and being active can help you be successful at quitting smoking and vaping. This could be going for a walk or taking part in an after school sport.

Find a Reason - Think of your most important reason to quit and write it down. Always keep that in mind, especially if quitting gets hard.
